

# RoR (Ruby on Rails)

## What does Mindfire Solutions have to offer?

We at Mindfire have been working in Ruby on Rails (RoR) for quite some time now. Our dedicated RoR developers can create web 2.0 applications using latest Ruby on Rails web services (Major new developments in Rails includes templates, engines, Rack and nested model forms). We are committed to providing our clients with sustainable solutions, quality services and superior support for this latest and well-known open source technology ROR. . We have developed a wide variety of applications based on Ruby on Rails Platform, catering to different types of requirements for different industries.

Few of the key industries we have expertise in are as follows:

Social Networking, Blogs and Widgets, Ad-Media and Real Estate websites with complex google and custom apps

You can have a look at the below link to have a look at some of the projects delivered by Mindfire in RoR:  
<http://www.mindfiresolutions.com/ruby-on-rails-development.htm>
