

Mindfire Solutions becomes a member of Oracle Partner Network.

28th November, 2011, Bhubaneswar: Mindfire Solutions is happy to convey that, it is now a member of the prestigious Oracle Partner Network. Mindfire was approved a Gold Level partnership with Oracle. Being a part of the Oracle Partner community, Mindfire can now enjoy a host of valuable benefits designed for companies committed to delivering innovations, quality solutions with Oracle.

Oracle Partner Network is a leading industry partner program that supports the growth & profitability of a company. There are a host of benefits offered by the OPN that a member can relish. Some of them are developing with Oracle solutions, selling Oracle solutions and implementing Oracle solutions.

Being an Oracle Partner Network company, Mindfire has earned the privilege to learn about useful tools, technical documentation, and innovative resources that would help in speeding up the development process and help its business grow. It would also help in enhancing the skills with free resources that are available in the competency centre and the Oracle university knowledge center. Having a gold level certification from Oracle would also help Mindfire to leverage the migration and modernization services to optimize the use of Oracle technology to build offerings that reduce the total cost of ownership, optimize the ability to react to ongoing business demand, minimize reliance on legacy skill sets, and improve compliance. The other range of facilities provided by Oracle are; it helps to explore the different programs to embed Oracle into Solutions and gain an enterprise-scale database or middleware that is easy to install, manage, and use. They provide product leadership, business insight, exceptional marketing and sales resources, innovation, and best practices documentation for achieving full sales potential. Their products and solutions offer industry's strongest IT portfolio for an increasingly complex marketplace. These are some of the advantages that Mindfire would gain being a part of the Oracle Partner Network.

In the past we have gained partnership with some of the leaders in technology and companies with popular development platforms. These include Microsoft Gold Certified Partnership, Adobe Solution Partner, IBM Business Partner and many more. "Mindfire intends to stay updated about the latest trends in technological innovations so as to provide the best IT Solutions to our clients" stated, Mr. Chinmoy Panda, CEO Mindfire Solutions.
