

# SharePoint Services

**Microsoft SharePoint** is a business productivity platform – connecting people, processes, and information together – for the enterprise and the Internet. With the release of SharePoint 2010 loaded with powerful new capabilities, there has never been a better time to let SharePoint help you take your business to the next level. Whether you are already reaping the benefits of SharePoint 2010 and want to further personalize and extend its capabilities, or are migrating from other technologies and older versions such as SharePoint 2007/2003/2001, a whole new world of possibilities beckons you.

Mindfire Solutions provides **expert offshore SharePoint development services** from India, backed by 6+ years of successful experience of providing SharePoint solutions for varied customer needs across many industry domains.

Our team of **certified SharePoint specialists** and developers will understand and tailor solutions for your unique and evolving business needs leveraging our strong technical and business domain expertise.

Our SharePoint Team is vouched by our customers for our expertise, quality of work and commitment to our customers' business growth. Our rich SharePoint development experience, flexible business model, and fine-tuned processes can translate to **high quality, faster time-to-market, and less cost** – i.e. happy customers and increased revenue – for your business.

If you are thinking about **Outsourcing SharePoint Development** or you want to **Hire Full-time Dedicated SharePoint Developers** by having an extended SharePoint Development team with us, you are at the right place! Contact us now and you will hear from our SharePoint Team within one business day.
