

Custom AI/ML Services

Transform your Data into Value. Allow us to craft custom AI/ML solutions for your unique needs.

✓ SKILLSET

- Machine Learning: Supervised/Semi-Supervised/Self-Supervised/Unsupervised Learning, Reinforcement Learning
- Deep Learning:
 - Neural Networks - FFN, CNN, RNN, LSTM, GAN, Diffusion Model
 - Frameworks - TensorFlow, Keras, PyTorch, ONNX, and Transfer Learning
- Natural Language Processing: NLTK, Spacy, Lex, Dialogflow, GPT, BERD
- Cloud Services:
 - AWS - Rekognition, Polly, Comprehend, Textract
 - GCP - Vision API, Text-to-Speech, Natural Language API, Translation API, Speech-to-Text, AutoML
 - Azure - Cognitive Services, Bot Service
- Feature Engineering: Data Preprocessing, Feature Selection, Feature Transformation

✓ SERVICES

- Data Collection and Preparation
- Model Development
- Model Evaluation and Testing
- Model Deployment
- Monitoring and Maintenance
- Consulting and Custom Solutions
- AI Strategy and Roadmap
- Natural Language Processing
- Computer Vision Services
- Anomaly Detection

✓ WHY US?

- Expertise in relevant technologies
- Customized Approach
- Scalable & Future-proof solutions
- Data Security & Compliance
- Safeguard of IPR
- Time-zone overlap

Harnessing custom AI/ML solutions can fuel revolutionary breakthroughs in businesses.

Share your Vision, Leverage our Expertise.
