

AI & ML Services

Transform your Data into Insights. Unlock growth with intelligent solutions.

✓ Skillset

- **Machine Learning:** Supervised/Semi-Supervised/Self-Supervised/Unsupervised /Reinforcement Learning
- **Deep Learning:**
 - Neural Networks - FFN, CNN, RNN, LSTM, GAN, Diffusion Model etc.
 - Frameworks - TensorFlow, Keras, PyTorch, ONNX, and Transfer Learning
- **Cloud Services:**
 - AWS - Rekognition, Polly, Comprehend, Textract
 - GCP - Vision API, Text-to-Speech, Natural Language API, Translation API, Speech-to-Text, AutoML
 - Azure - Cognitive Services, Bot Service
- **Feature Engineering:** Data Preprocessing, Feature Selection, Feature Transformation
- **Natural Language Processing:** NLTK, Spacy, Lex, GPT, Sentiment Analysis
- **Natural Language Understanding:** DialogFlow, RASA, BERT
- **Generative AI:** LLMs (OpenAI/ChatGPT, Mistral, Falcon, Gemma, GPT4All), OpenAI-Dalle3, Stable Diffusion, Faiss, ChromaDB, LangChain
- **AI-Driven Audio/Visual:** Speaker Diarization, Speaker Classification, Face Swap, Voice Cloning, Lip Sync, Intent Classification

✓ Services

- Data Collection & Preparation
- Model Development
- Model Evaluation & Testing
- Deployment & Integration
- Monitoring & Maintenance
- Consulting & Custom Solutions
- AI Strategy & Roadmap
- Natural Language Processing
- Computer Vision Services
- Anomaly Detection

✓ Why us?

- Expertise in relevant technologies
- Customized Approach
- Scalable & Future-proof solutions
- Data Security & Compliance
- Predictive insights with accuracy
- Time-zone overlap

Harness custom AI/ML solutions. Fuel revolutionary breakthroughs in businesses.

Share your Vision, Leverage our Expertise.
