

# IoT Expertise

Propel your business into the future of connectivity. From concept to deployment and beyond, we specialize in crafting customized IoT apps to integrate smart technology into your business.

## Services:

- Consultation and Strategy
- Custom Application Development
- Integration and Deployment
  - Sensor and Device Integration
  - Cloud Integration
  - Mobile IoT Integration
- Ongoing Support

## Expertise:

- IoT protocols: MQTT, CoAP, BLE, NFC, and HTTP for data transfer.
- Device Integration: Healthcare, Wearable, Asset Tracking, Fitness Tracker, Agriculture, Environmental Sensors.
- Cloud Integration:
  - Azure : IoT Central, IoT Hub, IoT Edge
  - AWS : IoT Core, IoT Greengrass, IoT Fleet, IoT Events
- Open-source platforms : ThingsBoard and Node-RED
- Mobile IoT Integration

## Why choose us:

- Access to specialized expertise & experience
- Rapid prototyping and development
- Flexible & scalable engagement models
- Efficient & timely delivery
- Reliability & support
