

JAVA Expertise

Services

- Enterprise Java App Development
- Java Web App Development
- Web API & AI-ready Service Development
- Software Product Development with AI Integration
- Migration of Apps and Platforms to Java
- SaaS-Based Systems with Intelligent Features
- Upgrade and Modernize to latest Java Stack
- AI-enabled Test Automation

Verticals

- Healthcare
- Publishing
- Finserv
- Education & e-Learning
- Hospitality
- Technology
- Transportation & Logistics
- Semiconductor Research

Expertise

- Enterprise-grade Web App Development
- Software Product Development
- API Development and Integration
 - Devices
 - Mobile Applications (Native, Cross-Platform, Hybrid)
 - Third-Party API Integration
 - AI-enabled API Integration and Intelligent Services
- Payment Gateway Integration
 - PayPal, Authorize.Net, Genius, Paytm, Razorpay
- Migration of Java Applications to the Cloud
- Migration and Modernization of Apps to Java Platform
- Business Intelligence, Analytics, and AI-driven Insights
